

Silly Goat Song

As the title indicates, this is a silly song- but filled with fun facts about goats! For more information to share with kids, Google “fun goat facts for kids”.

Note *simple hand motions* for each verse.

A goat has teeth in the bottom of his mouth,
The bottom of his mouth, the bottom of his mouth
A goat has teeth in the bottom of his mouth
But no teeth on the top (*Point to bottom, jaw, then top*)

A goat's eyes pupils are rectangular,
Rectangular, rectangular (*draw large rectangle around eyes*)
A goat's eyes pupils are rectangular,
And he sure can see a lot

When a goat gives birth we say she's kidding,
We say she's kidding, we say she's kidding (*pretend to rock baby arms*)
When a goat gives birth we say she's kidding,
And I'm not kidding around (*pretend to rock a baby in arms*)

Goats like to travel around in herds,
Around in herds, around in herds
(*open hands circle in front of body*)
Goats like to travel around in herds.
At least that's what I've heard (*hand cupped over ear*)

Did you know that goats all burp a lot,
They burp a lot, they burp a lot (*hand in front of mouth*)
Did you know that goats all burp a lot,
You can hear them burping in the barn

Now this is the end of my silly goat song,
My silly goat song, my silly goat song
(*pretend to conduct orchestra in large movements*)
This is the end of my silly goat song,
It's the end of my song and I hope you sang along!
